PROFILE

Double degree in Computer Engineering and Web & Mobile Engineering, passionate about web development, cloud technologies, and DevOps. Seeking my first employment opportunity starting September 2025.

EDUCATION

Master's Degree in Computer Engineering National School of Engineers of Le Mans (ENSIM)	2023 – 2025 Le Mans, France
State Engineering Degree in Web and Mobile Engineering National School of Computer Science and Systems Analysis (ENSIAS)	2021 – 2023 Rabat, Morocco
Bachelor's Degree in Mathematics and Computer Science Faculty of Sciences of Tetouan	2018 – 2021 Tetouan, Morocco

PROFESSIONAL EXPERIENCE

Full Stack Engineer (Internship) STMicroelectronics	03/2025 – 09/2025 Le Mans, France
- Designed a web application integrated with Jenkins to manage on-demand compilation and testing, with real-time job tracking - Developed a REST API for dynamic configurations and job history by user groups, stored in MySQL - Implemented a user group management system with shared configurations and caching mechanism to enhance performance - Improved UX/UI with ReactJS and Tailwind CSS for an ergonomic interface and user action tracking for traceability - Set up a CI/CD pipeline (Jenkins) automating build, testing, and deployment of a Docker image on a Linux virtual machine - Tech: Java, Javascript, ReactJS, Spring Boot, Jenkins, TailwindCSS, MySQL, Docker, REST API, Redis	
Data Analyst (Internship) Moroccan Foreign Exchange Office	08/2022 – 09/2022 Rabat, Morocco
- Analyzed the data lifecycle at the Foreign Exchange Office - Modeled and forecasted financial transactions of Moroccans abroad for the upcoming year - Tech: Python, Pandas, NumPy, Statsmodels	
Backend Developer (Internship) NVIT Solutions	07/2021 – 08/2021 Remote
- Integrated an external API for URL shortening - Developed a RESTful API to manage user interactions and communication with the external API - Designed and implemented a relational database - Tech: Java, Spring Boot, REST API, MySQL	

PROJECTS

Multi-parameter Web Application for Sensor Visualization Web Development	<i>ReactJS, WebSocket, REST API</i>
- Developed an interactive interface with ReactJS featuring real-time visualization (dynamic charts, auto-refreshing tables) and complete interaction with the REST API - Designed a customizable dashboard (sensor selection, time filters, display configuration) - Integrated WebSocket for real-time MQTT streams and REST API for CRUD operations and data history	
Telegram Bot Backend Development	<i>Java, Spring Boot, API REST</i>
- Developed a Telegram chatbot integrating weather data provision and random joke generation based on user requests - Implemented a polling mechanism to intercept messages in real-time and provide appropriate responses	
"BRICOLIYA" Service Marketplace Web Application Full Stack	<i>Java EE, MySQL, Design Patterns</i>
- Designed and created an optimized relational database with MySQL - Developed the web application using JSP, JSTL, HTML, CSS, JavaScript, Servlet, and JavaEE - Implemented design patterns such as Factory and Singleton for a modular architecture - Developed a solution connecting professionals and clients to facilitate interactions and exchanges	

TECHNICAL SKILLS

Programming Languages	C++, JAVA, PYTHON, JAVASCRIPT, TypeScript, SQL
Web Development	HTML, CSS, TailwindCSS, ReactJS, Angular, Spring Boot, JAVA EE, REST API, SOAP, Bootstrap, Figma
Design & Databases	UML, MERISE, MySQL, PostgreSQL, MongoDB
Cloud, DevOps	Docker, Jenkins, DigitalOcean, GoogleCloud, Git, Github, Gitlab, Ansible, CI/CD

LANGUAGES AND CERTIFICATIONS

Languages	French (Bilingual), English (B2-C1, TOEIC 835), Arabic (Native)
Soft Skills	Problem Solving, Adaptability, Communication, Teamwork
